

What's happening? News Flash: Local Music Store Moving Location

Dietze Music is moving its south Lincoln store from the Old Cheney Plaza (56th & Hwy 2) to the Briarhurst Shopping Center (former True Value Hardware location).

THE DOWNTOWN STORE

402.476.6644

1208 "O" Street

We are relocating our third floor downtown guitar and drum shop to combine with the Briarhurst location for a more convenient and larger Lincoln presence. Our downtown store will continue to offer school instrument rentals, specialty print music and methods, and a new boutique guitar store on its first floor, with pianos on the second. The third floor will be converted to a recital hall, "Fenton Theatre." The move is scheduled for a soft opening in July.

NEW BRIARHURST LOCATION

48th and Highway 2

402.434.7454

The new Briarhurst location at 48th and Hwy 2 will offer convenient parking, lessons and repairs, a more open retail display environment, with lessons and a place for musicians to congregate and commune. WiFi and flat screen TVs will be available for parents and family waiting for lessons. Guitars, drums, keyboards, microphones and school band and orchestra instrument rentals will continue to be a specialty, with support services in print music and band instrument and string repairs.

pound of music

Bottom Ten:

Each day, we select ten items to sell **5% UNDER** manufacturer's net pricing at both Lincoln stores. We actually started this in late May and are already accumulating a pile of "treasures." Of course, the good stuff goes fast at that price; you'll want to come in early (and often!).

Fender Floor Model Sale:

When you run out of Fender Floor model guitars to discount, what do you do? You make **MORE** floor models. We keep adding to the pile daily, you get an unprecedented bargain. How do you "make" a floor model out of a new one? Come in and find out.

Drums, Cymbals, Hardware:

Most of the good stuff... gone. What do you do? You start discounting even deeper on what's left.
